PROFESSIONAL SUMMARY

Bachelor of Engineering in Artificial Intelligence and Machine Learning graduate from East West Institute of Technology with a strong foundation in Python, SQL, frontend development, and data visualization. Experienced in building AI and web-based applications through academic and internship projects. Quick to learn new technologies, enjoy solving problems, and looking for an entry-level opportunity as a Python Developer, SQL Developer, Frontend Developer, or Software Developer.

EDUCATION

Bachelor of Engineering (B.E.) | AIML | Year of Graduation: 2026

TECHNICAL SKILLS

- **Languages:** Python, SQL, JavaScript
- **Frontend:** HTML5, CSS3, React.js
- **Backend:** Django
- **Data Visualization:** Power BI, Tableau
- **Tools:** VS Code, Jupyter Notebook

EXPERIENCE

I have completed my “Python Full Stack” internship at Pyspiders, where I worked as a Frontend Developer on the project “EchoEats – Food Delivery Using Voice Assistant”.

PROJECTS

Final Year Project:- Deepfake Audio, Video & Image Detection (D.A.V.I.D)

Technologies: Python, PyTorch, OpenCV, CNN, RNN, LSTM, 3D CNN, NumPy, Pandas, Wav2Vec, PyDub

- Developed a deep learning system to detect fake audio, video, and images generated using GANs.
- Implemented CNN, RNN, LSTM, and 3D CNN models for multimodal detection.
- Used OpenCV for image processing and NumPy and Pandas for data handling.
- Applied Wav2Vec and PyDub for audio feature extraction.
- Generated prediction results with Accuracy and F1-Score to evaluate whether media was real or fake.

Internship Project:- Echo Eats – Voice-Based Food Ordering System

Technologies: HTML, CSS, JavaScript, React.js, Django, MySQL

- Developed a voice-controlled food ordering web application.
- Built a responsive user interface using HTML, CSS, JavaScript, and React.js.
- Developed the backend using Django and managed data with MySQL.
- Enabled users to place food orders through voice commands without manual interaction.

SOFT SKILLS

Communication | Problem Solving | Teamwork | Adaptability | Quick Learner

LANGUAGES

English | Kannada | Hindi | Marathi

INTERESTS

Reading Books | Creative or story Writing | Learning New Technologies

CERTIFICATES

Ethnotech: Web Technologies | Python

Pyspiders: Python Full Stack
